EAST PALACES CO. W.L.L.

WATERPROOFING

## MDs' Message

With distinct pleasure, I welcome you, and I would like to introduce East Palaces Company to you. In recent years, Qatar has undergone tremendous changes with a whole lot of infrastructural and developmental activities taking place. East Palaces, which was established in 2001, has sensed this change and has been in the forefront of this progress.

Since inception, we have expanded our scope of activities from air conditioning works to waterproofing, trading and general services. We are the agents for Senator brand of air conditioners and Super Plats brand of colored decorative plasters.

I am proud to work amongst sincere, hardworking and professional people who consist of managers, engineers, fabricators, supervisors etc. We have a strong workforce of more than 200 people which are drawn up from different countries.

We, at East Palaces, aim for further expansion and achievements as the future holds good for everyone in Qatar. I would like to close my remarks by inviting you to navigate through our user-friendly and aesthetically-designed web pages

EAST PALACES CO. W.L.L.

## WATER PROOFING

This Division caters to the ever-growing requirements of the water proofing industry. We have provided efficient and reliable solutions to the water proofing needs of innumerable Villas and buildings. We have a well-qualified and experienced Engineer, Technicians and Workmen to carry out all kinds of water proofing works.

We have a range of products for the thermal insulation needs of buildings and villas, be it for wall, roof or floor applications. The advantages of thermal insulation are high comfort levels, increased building life and savings in energy.

### The Manpower of this Division is as follows:

Engineers

Forman's

Technicians

Masons

Workers

# PROJECT HANDED OVER

**The followings are some of our projects, which we did the water proofing works For:**

**Qatar Development Contracting & Trading Co.**

No. 2 Buildings B + G + 6 at Al Mansoura & AL Najma Area.

Rivira Compound (15 Villa) Al Huhail Area.

22 Villas at the Airport Area.

3 Villas + S.Q at Al Waab Area

6 Villas at AL Duhil Area.

G + 5 Building at Bin Mohamed Area.

**Union Qatar Contracting & Tracding Co.**

No. (4) Buildings B + G + 6 at Al Mansoura Area.

No. (8) Villas At Rayyan al Kadeem Area.

One Building at Mushaireb Area.

Two Building at Bin Mahmoud Area

**Medmac Co.**

Education City al rayyav.( Foundation )

**Al baytour contracting Co.**

Al Reem tower at al Dafna area

**National Trad. & Cont. Co.**

103 Villas at Al Dafna Area (3 Complexs)

18 Villas + Club at Al Mirikh area.

Two Building at Bin Mahmoud Area

One Building at Bin Mahmoud Area

**Ramco Trad. & Cont. Co.**

Al Asmakh Tower – At Al Dafna Area.

Regency Tower – At Al Dafna Area.

Al Rayyan Tower at al Dafna area

Al mana & Partners Twin Tower al Dafna area

**Al Darwish Eng.**

Amwal Towers. at ( Foundation ) al Dafna area

**Man Enterprice Co.**

Al Jajera Complex – At Al Saad Area.

Al wasiel Tower At al Dafna area

**Bldg & Engr. Bureau**

22 villa – at markhia area

16 Villas - at markhia area

One Building at Al mansoura Area

**Shk. Mansour Bin gabr Al Thani**

Complex Building - At Al Saad Area.  
22 Villa + Garage + H.C – At Om Zeghewa  
One hotel – At Wokra area.  
80 Villas at al khood area

**Al Arabia Engineering Co.**

One building at khurutyat Area.  
14 Villas at Al Azezyah  
30 Villas at Ain Khalid area  
52 villas at al gharafa area

And so many projects

**Al Bayraq Construction Trad Co.**

12 Villas at Abu Hamour  
10 Villa at Old Airport area.

**Al Nahad Construction Trad Co.**

3 villas at Al Marikh area.  
2 villas at Abu Hamour area.  
One Palace at Al Rayyan Area  
Two Building at Bin Mahmoud Area  
One Building at Al Mansoura Area

And so many projects.

**Al Omara Al Islamiya Construction Trad**

Three buildings at Al Mansourah area  
35 Villa at Al Dafna area

**Al Radi Construction Trad Co.**

One building at Al Saad area.  
One building at Bin Omran area.  
B + G + 7 Foundation at Al Saad area.  
6 Villas complex + Externals at Al Duhil area.  
Three public house at Al duhil Area

**Al Takamul Construction Trad Co.**

30 Villas at Salwa Road area.  
One building at Bin Mohamed area.

**Al Aali International Co.**

8 Villas at Abu Hamour Area.  
2 Building at Al Saad Area.  
1 Building at Al Mansoura Area.

**Alba Construction Trad Co.**

2 Building at Al Saad area.  
10 Villas at Ein Khalid Area

**Al Badr Construction Trad Co.**

10 public house at Abu hamour area.  
2 Mosque at Al rayyan Area

**Barada Construction Trad Co.**

13 villas at Al Waab area.  
Administration building at Abu Hamour area.  
7 public house at Abu hamour

**Bin Barak Cont. Co.**

One villa at Shouq Waqif area.  
One building at Madina Khalifa area.  
3 Villas at Dahl al hamam ( Al Markheia )  
Two Villa + Ext. At Al Wakra Area  
One Mosque At al Wakra Area

**Bo Matar Group.**

12 villas at Al Duhil area.  
One villa at west bay lagon area.  
Girls University at west bay lagon area.

**Bo Jomhoor Co.**

2 Building at Al Ghrafa area.  
E.M.S + H.C + External at Al Ghrafa area.  
One school at Om Selal Mohamed  
E.M.S at Al Ghowairya Area

**Eid Bin Mohamed est.**

One worker camp at Industrial area.  
1 building B+G+8 at al Nasser area  
3 villas at abo hamour area  
Three Building at Bin Mahmoud Area

**G.L.C Co.**

3 Villas at Al Duhil area.  
7 villas at AL Wakra Area.  
One villa at Al Ghrafa area.  
3 Public house at AL Wakra are.  
One Villa at Al Waab area.

**Integration Construction Trad. Co.**

30 villas at Mamourah area  
G + 3 Billas at Bin Mohamed area.  
55 villas at Al Ghrafa area.  
Labour camp at Industrial area.

**Mohd. Youssef Kaffod & Sons**

G + 7 at Al Rayan Street  
G + 6 at AL Mansourah area.  
G + 5 at Najma street

One villa at west bay area.  
G + 2 at Old Airport area.  
G + 7 at AL Mansourah area.  
G + 8 at Al Mamourah area.  
4 villas at Old Airport area.  
One building foundation at Mushireb  
G + 6 Mushireb

And So many projects

**Red Line co.**

Complex house building at AL SAAD area  
G + 7 foundation at Al saad area.  
Hotel at al wakra area  
1 building at al mansoura area  
22 Villas at Al Gharrafa Area  
One Hotel At Al Salata Area  
One Hotel At Al wAkra Area  
24 Villa at Zegowa Area  
49 Villa at Abu Hamour Area

**Third Dimension**

2 Villas AL Mamourah area.  
16 villa at al gharafa area  
2 building at bin mahmoud area

**United construction co**

Al sharq hotel at ras abo abboud

**Bab ishtar Construction & Trad. Co**

1 building at om ghuilina  
20 Villas at al waab area  
8 Villas at New Salata  
Al Ein Market At Salwa road

**Marco Construction. Co**

13 villa at al gharafa area  
1 building at om ghwilina area  
1 building at rass abo about

**Bitak Construction Dev. Co**

1 building foundation at new Doha  
10 villas at old airport  
1 building at al sad area  
6 Villa At Al Azizia Area  
8 Villa At Al Waab Area  
2 Building At Al Saad Area  
1 Building At Al Nasser Area  
2 Buildings At C Ring Road

**Al ofoq trading & cont. Co**

1 building at al sad area  
6 villa at al gharrafa area

**Athar trading & cont. Co**

1 building foundation at old ghanem area  
2 villa at al dafna area

**Al Andalusia trading & cont. Co**

1 building foundation at om ghulina  
8 villa at al ein khaled area  
G+2 building at bin omran  
Al wajba palace at al rayyan area  
12 Villa At Zegwa Area  
1 Villa At Zegwa Area  
2 Labor Camp At Industrial Area  
Two Building At Al Sad Area

**Saif al Arab trading & cont. Co**

Palace + externals at al rawda area  
4 villas at merikh area

**Conserve trading & cont. Co**

6 villa at al dafna area  
14 villa at ein khalid area

**Al Mikhlafy trading & cont. Co**

Majles + external at al duhil area  
5 villa + externals at al duhil area

**Premium trading & cont. Co**

6 villa + externals at al azizia area

**United architecture cont. Co**

40 villa + externals+ club at abo hamour area

**Doha Qatar trading & cont. Co**

4 villa at ein khalid area  
1 villa at ein khalid area  
8 villa at new salata area  
1 mosque + accommodation at al mamoura area

**Doha development trading & cont. Co**

2 villa at al wakra area  
5 villa + externals at al mamoura area  
1 Building " Drug Control Office " at al shahanya Area

I Building at Bani Omran Area

**M&N trading & cont. Co**

2 villa + externals at al khorityyat area

4 villa + externals at al Khissa area

**Al wehda groop trading & cont. Co**

1 villa at al Nasserya area

6 villa + externals at al waab area

**Mecca cont. Co**

1 building foundation al Helel area

2 buildings at al Najma area

**Sinai carpets . Co**

Al jedah Market at Bin mahmoud area

**Qatar world trading & cont. Co**

# **THE METHOD OF STATMENT**

# **The Method of statement**

## **For laying the Under Ground membrane waterproofing.**

### **For the raft and the retaining walls**

#### **(1) For the raft foundation.**

- A. To clean the blinding surfaces and to be sure it's dry and with smooth surface..
- B. To apply the primer bituminous coat approved one.
- C. To start laying the first layer of the membrane the lower surface should be heated with a propane torch, taking in consideration the orientation to adjacent rolls should be laid, each overlapping the one next to it by 10cms on the side and 15cms at the ends. And all taking care not to change the orientation of each roll.
- D. Reverse the process until each has been re-rolled.
- E. There will be at the parameter extra 30cm membrane from the edges of the raft for the retaining walls.
- F. Making inspection for the completed work by the consultant and main contractor.
- G. To start laying the second layer of the membrane in according with point No C, D, E, & F. in the other direction.
- H. The main contractor to make the screed protection layer 7cm for the water proofing membrane. Taking in consideration our attached sketch.

#### **(2) For the retaining walls.**

- A. To be sure that surface is clean smooth and dry and there are no any holes or other problems in the concrete surface.
- B. To apply the primer bituminous coat (Derma Primer)
- C. To start laying the overlap which exist at the blinding of the raft through angle filter. Please refer to our attached section.
- D. To start laying the first layer of the membrane, with the existing over lap. The lower surface should be heated with a propane torch, taking in consideration the orientation to adjacent roll should than be laid, each overlapping the one next to it by 10cm on the side and 15cms at the ends. And all taking care not to change the orientation of each roll.
- E. Reverse the process until each has been re-rolled.
- F. Making inspection for completion of 1<sup>st</sup> layer.
- G. To start laying the second layer of the membrane with the existing over lap and to the walls, the lower surface should be heated with a propane torch and in according with the method (D).
- H. To make inspection by the consultant for the completion of the second layer.
- I. Start layer of the bituminous protection board.
- J. To make inspection for completion of the above.

# **The Method of Statement "Underground Structures Waterproofing System"**

**Our method of making the water proofing roof type inverted system it's as following;**

- 1) Cleaning the existing surface of sloped screed from any slurry and dust.
- 2) Painting the existing screed surface by the approved Bitumen Primer.
- 3) Laying the approved waterproofing membrane at the painted surface.
- 4) Making a water leaking test for the complete surface for 48 hours against any leakage and make inspection.
- 5) Laying the approved types of thermal insulation sheet. the Extruded Polystyrene sheet (5cm) with 32-35 Kg/m<sup>3</sup> density
- 6) Upon getting the approvals, start laying the approval type of separation layer.
- 7) Laying the membrane water proofing one layer as Skirting with 20-30 cm height all around the parapet setting at groove. with a mastic sealant inside this groove.

That is our method of statement issuing you for our full complying for any instruction and assisting for any clarification.

# **The Method of Statement "Roof System"**

**Our method of making the water proofing roof type inverted system it's as following;**

- 1) Cleaning the existing surface of sloped screed from any slurry and dust.
- 2) Painting the existing screed surface by the approved Bitumen Primer.
- 3) Laying the approved waterproofing membrane at the painted surface.
- 4) Making a water leaking test for the complete surface for 48 hours against any leakage and make inspection.
- 5) Laying the approved types of thermal insulation sheet. the Extruded Polystyrene sheet (5cm) with 32-35 Kg/m<sup>3</sup> density
- 6) Upon getting the approvals, start laying the approval type of separation layer.
- 7) Laying the membrane water proofing one layer as Skirting with 20-30 cm height all around the parapet setting at groove. with a mastic sealant inside this groove.

That is our method of statement issuing you for our full complying for any instruction and assisting for any clarification.

# **The Method of Statement "Wet Area"**

**Our method of statement of making the water proofing system for the wet area it's as following;**

- 1) Cleaning the existing smooth surface from any slurry and dust.
- 2) Applying the Bitumen primer to the surface. The approved type.
- 3) Laying the approved waterproofing membrane at the painted surface.
- 4) Making a water leaking test by filling water and keep it for 48 hours.
- 5) Making inspection and get it approved.

That is our method of statement issuing you for our full complying for any instruction and clarification.

**The Method of Statement For" waterproofing the Isolated footing and Boundary wall footing by Bitumen Rubberized Emulsion "**

**Our method of statement of making the water proofing system for the isolated footing and Boundary it's as following;**

- 1) Cleaning the surface from any dust and slurry before starting Applying and it must be dry.
- 2) Applying one coat of AIM Rubberized Bitumen Emulsion 3510.
- 3) Applying another coat of AIM Rubberized Bitumen Emulsion 3510. If Required to Reatch DFT of 0.72mm after getting the first coat dray and inspected and making inspection.
- 4) Covering the painted service by polythen sheet 1000kg /m<sup>3</sup> before starting the back filling to protect the applying surface.

That is our method of statement issuing you for our full complying for any instruction and clarification

# **The Method of Statement for "Membrane Self Adhesive 1.5mm"**

**Our method of making the water proofing system it's as following;**

The Floors:-

- 8) The concrete surface of blinding must be properly floated finish clean and free from any void, honeycomb, laitance, coarse aggregates and sharp unevenness and from any traces of mustar or curing compound to be removed, and must be completely dry.
- 9) Apply one coat of primer D-41 solvent based Bituminous allow the primer to dry overnight.
- 10) Start applying the layer of self-adhesive membrane by removing the release film by peeling back not more than 30cm at a time. Start to unroll the Adesobeit membrane keeping the adhesive side face-down on the primed surface. Press down the membrane by hand, and by special hand roller if required the minimum end lap should be 150mm.
- 11) Protecting the layer of self-adhesive laying by protection board and polythen sheet and screed of 3-6cm thick before laying any Reinforcement to the top of it.

For Wall:-

1. The concrete surface of blinding must be properly floated finish clean and free from any void, honeycomb, laitance, coarse aggregates and sharp unevenness and from any traces of mustar or curing compound to be removed, and must be completely dry.
2. Apply one coat of primer D-41 solvent based Bituminous allow the primer to dry overnight.
3. Start applying the layer of self-adhesive membrane by removing the release film by peeling back not more than 30cm at a time. Start to unroll the Adesobeit membrane keeping the adhesive side face-down on the primed surface. Press down the membrane by hand, and by special hand roller if Required the minimum end lap should be 150mm.
4. Protecting the layer of self-adhesive laying by protection board and polythen sheet and screed of 3-6cm thick before laying any Reinforcement to the top of it.
5. Applying protection board and stick it to the Applied self Adhesive

That is our method of statement issuing you for our full complying for any instruction and assisting for any clarification.
